**FOR IMMEDIATE RELEASE**

**Local Landscape Designer Joe Palimeno Wins “Best of Show” and “Gold” at the 2012 Singapore Garden Festival.**

*The Singapore Garden Festival is a biennial event and the first and only international garden show in the tropics to showcase creations from the world’s top award winning garden and floral designers all under one roof.*

**Joe Palimeno** of Ledden Palimeno Design-Build Landscape Company in Sewell, NJ is celebrating two truly international victories for his exhibit, “The Modernist Garden” in Singapore at the 2012 Singapore Garden Festival. It was through Joe’s success over 20 years and 46 exhibits, winning five “Best in Show’s” in Philadelphia, he was invited to Singapore to compete against the world’s top garden designers!

Joe’s exhibit theme, **‘The Modernist Garden’** utilized innovative materials inspired by modern art and social ideas as the driving force in his design work, the ultimate goal being to provide an outdoor living space for the delight, joy and serenity of the people that inhabit the space.

The design included a contemporary shade structure draped in fabrics for providing shade and a soothing plunge pool. Custom cushions added softness to the stone walls providing a comfortable place to read. A path leading through the garden incorporated pleasant long sweeping lines of turf. Plantings acting as walls helped to define the space with colors, textures, and scents that brought the exhibit to life.

“Much like the Philadelphia International Flower Show, the 2012 Singapore Garden Festival put us in front of 300,000 international visitors over an 8 day period July 7-15 showcasing all the possibilities of what one can have in their own backyard, but with the difference being truly among international designers.”

***Joe Palimeno of Ledden Palimeno Design-Build Landscape Company excels in single-source design-build. Functional and usable outdoor spaces and gardens that capture the desires and tastes of the client and blend them seamlessly into the surrounding environment and architecture of the house.***
